ESMERE GARDENS

NURSING HOME

At Esmere Gardens, we believe
Life is for Living at whatever age.
Our ethos is comprised of two key elements,
Quality of Care and **Quality of Life**.

Quality of Care

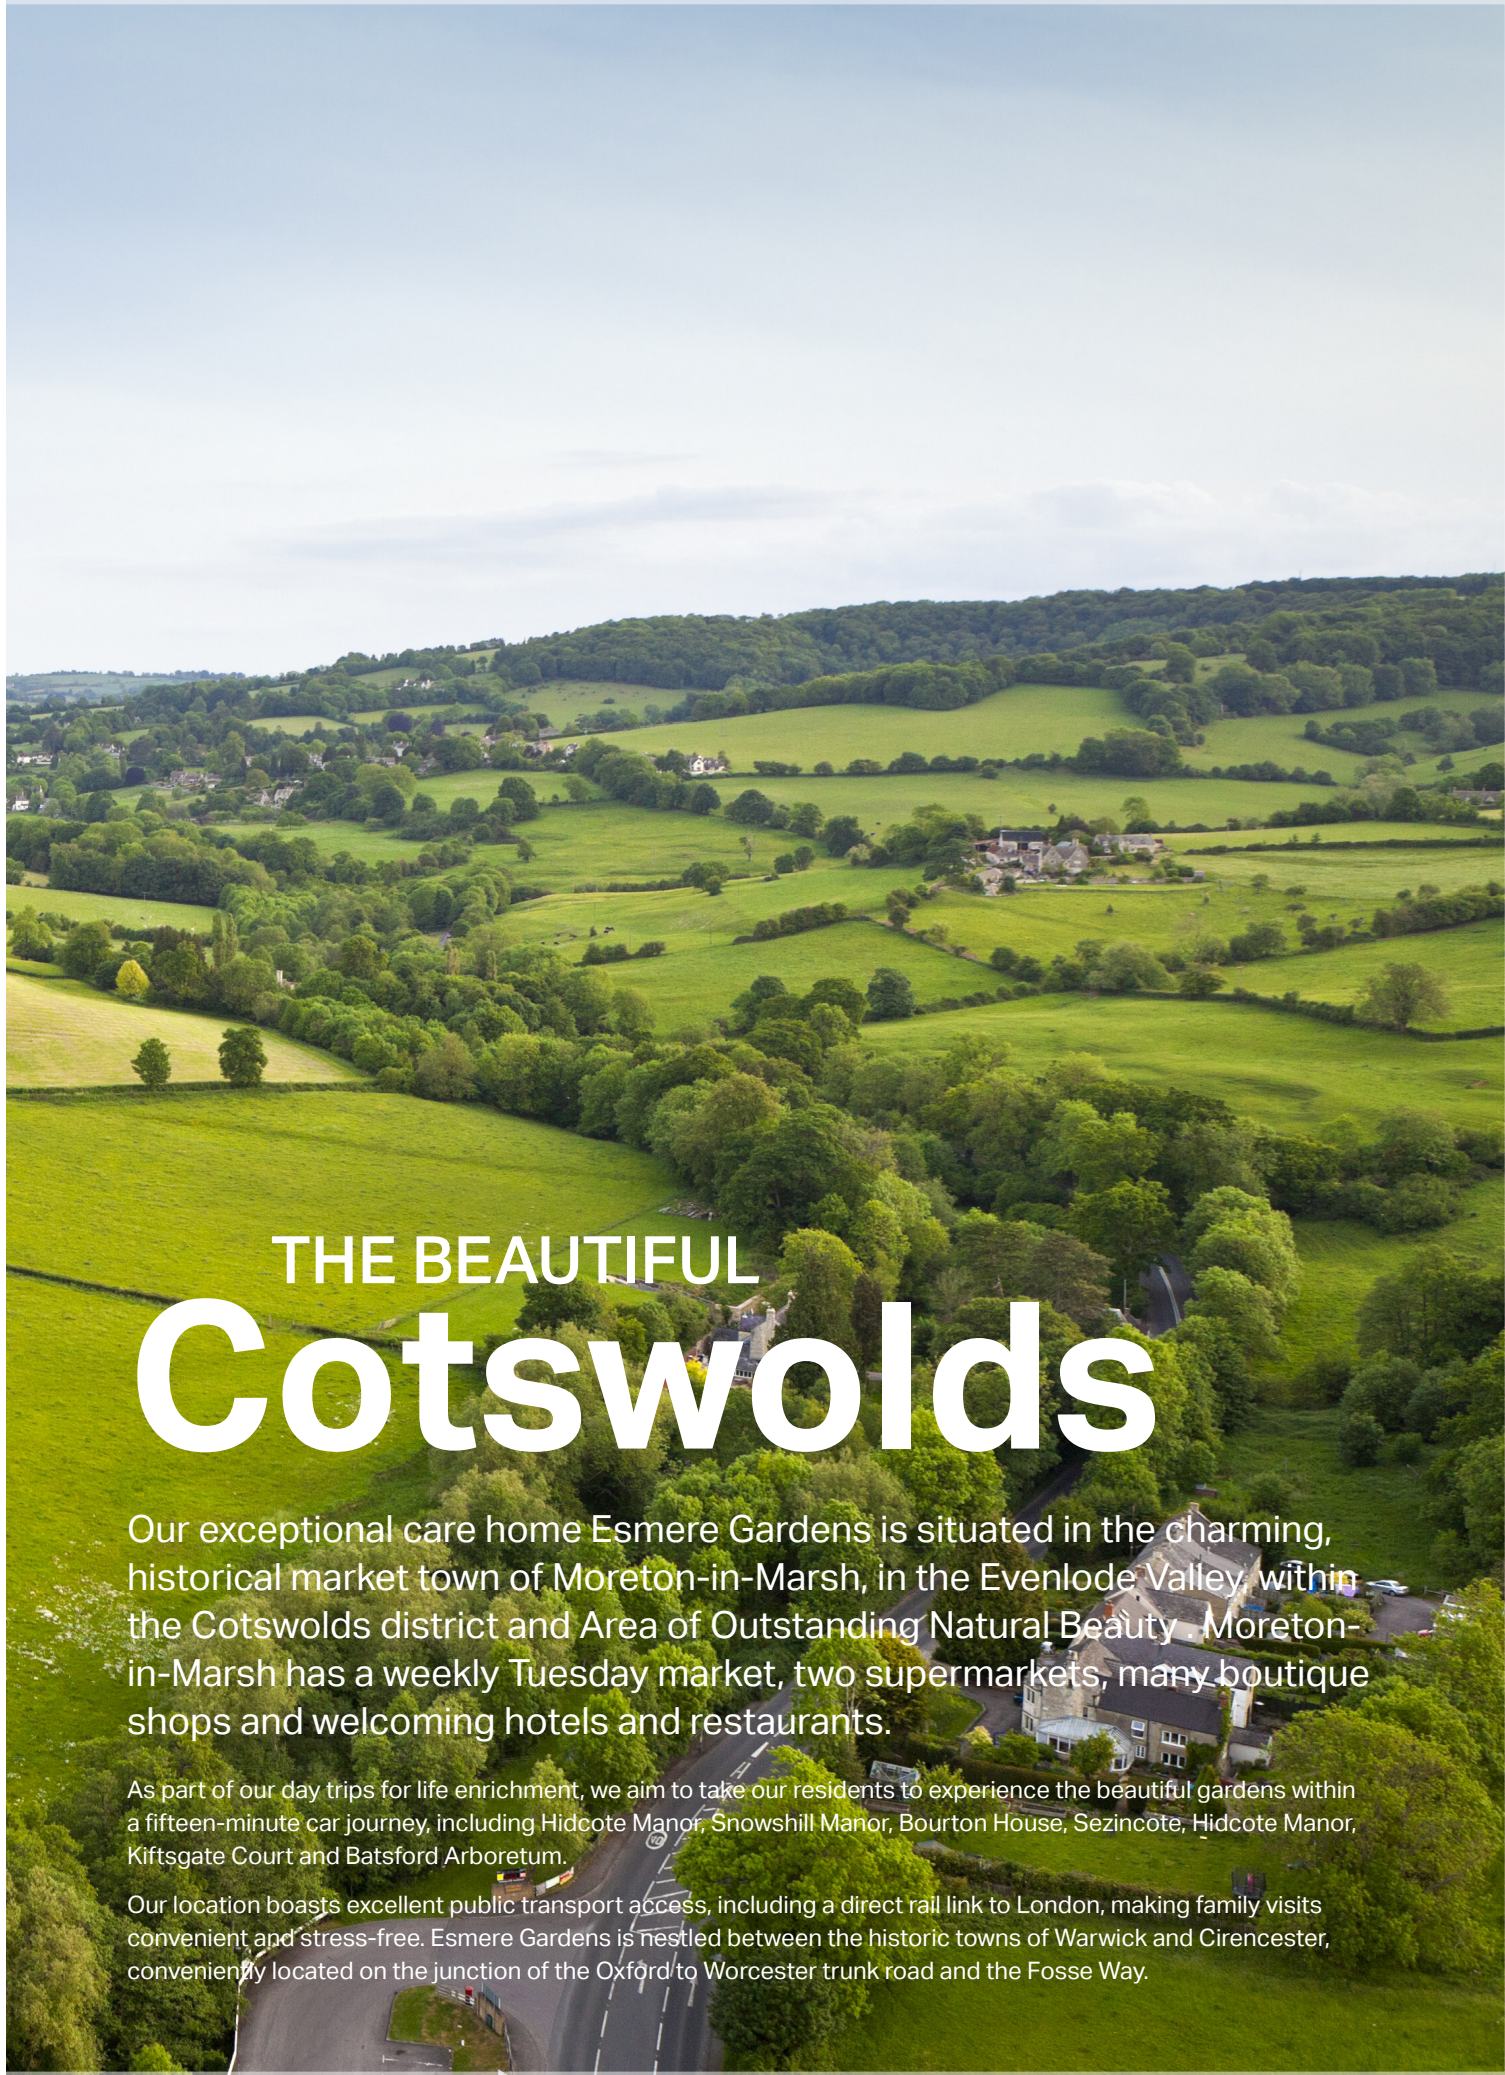

At Esmere Gardens, our goal is to provide you or your loved one with a feeling of safety by knowing that you are being well looked after. Our dedicated team of skilled and engaged professionals ensure that your unique care needs are met with precision and compassion. Continual enhancement of our systems is at the forefront of our approach, guaranteeing that you can place your trust in the capable hands of a proficient team. Notably, Esmere Gardens proudly introduces Plus10 Care, an innovative healthcare management system that sets us apart. This cutting-edge technology empowers us to gather and oversee residents' healthcare data, offering an avenue for improved clinical insights. By facilitating faster and more accurate health diagnosis, we hope to lay the foundation for prompt and effective treatment.

Quality of Life

Quality of Life is our guiding philosophy, reflecting our belief that comprehensive care extends beyond safety-it encompasses joy. Regardless of age, everyone deserves happiness, which can only emerge from a holistic approach to care. At Esmere Gardens, we emphasize the softer facets of care delivery. This entails fostering meaningful relationships with family and friends, ensuring regular engagement in daily activities that spark joy. But that's not all; our commitment extends to hosting significant events and invigorating day trips throughout the year, fostering an environment where there's always something to look forward to.

Experience the Esmere Gardens difference, where Quality of Care and Quality of Life intertwine.

THE BEAUTIFUL Cotswolds

Our exceptional care home Esmere Gardens is situated in the charming, historical market town of Moreton-in-Marsh, in the Evenlode Valley, within the Cotswolds district and Area of Outstanding Natural Beauty. Moreton-in-Marsh has a weekly Tuesday market, two supermarkets, many boutique shops and welcoming hotels and restaurants.

As part of our day trips for life enrichment, we aim to take our residents to experience the beautiful gardens within a fifteen-minute car journey, including Hidcote Manor, Snowhill Manor, Bourton House, Sezincote, Hidcote Manor, Kiftsgate Court and Batsford Arboretum.

Our location boasts excellent public transport access, including a direct rail link to London, making family visits convenient and stress-free. Esmere Gardens is nestled between the historic towns of Warwick and Cirencester, conveniently located on the junction of the Oxford to Worcester trunk road and the Fosse Way.

CARE IN THE COTSWOLDS

EXPERTS IN CARE

With a legacy spanning a remarkable 20 years, our dedication to care services runs deep.

This wealth of experience serves as our compass, guiding us to craft care delivery that genuinely reflects the best interests of our patients. A prime illustration of this commitment lies in our approach to residents who transition into care homes. Often, this transition can mark a shift in their ability to independently care for themselves. We were not content with mere adaptation of our settings to manage this transition.

We believe in pro-actively empowering our residents.

To this end, we implement thoughtful strategies designed to preserve and enhance their abilities. Through the incorporation of physiotherapy and tailor-made exercise regimens, we embark on a journey of potential betterment.

While it's true that not every resident will experience an improvement, we are privileged to share heart-warming success stories that inspire us all.

Witnessing residents regain their independence is a testament to the power of our tailored approach.

These triumphs translate into real-life transformations, where individuals leave our care with new-found confidence and capabilities. We have been honoured to witness residents confidently return to their homes, equipped to embrace life more capably than before.

FOR YOUR PEACE OF MIND

Our all-inclusive* fee structure allows residents to indulge in the little luxuries that bring them joy. To simplify the payment process for families, we provide one monthly bill that covers all our premium facilities and services.

Esmere Gardens is at the forefront of technological innovation, leading the way with our cutting-edge Plus10 Care initiative. The name 'Plus10 Care' stems from our ambitious mission: we firmly believe that assessing healthcare data can extend human life by an astounding ten years. As pioneers in this field, we are determined to play a key role in making this vision a reality.

Plus10 Care captures data through various devices placed strategically throughout the home. Through this state-of-the-art machine learning algorithms, our nurses receive timely notifications to attend to patients when needed. The meticulous analysis of healthcare data allows us to promptly identify any signs, potential issues or treatments that might not be producing the desired outcomes. With the use of this technology, we aim to enhance the quality of care we provide, ensuring our residents receive the best possible attention and support.

"Everything possible was done to put my husband and me at ease, as this was his first residential experience. At the end of his respite, my husband was full of praise for everything about his experience - food, staff, facilities and activities."
